## SUMMARY

Full-stack developer with a background in multimedia design seeking to build elegant and intuitive websites. Deepened knowledge of the MERN stack through the Carleton University Coding Bootcamp and currently developing multimedia skills through the Interactive Multimedia and Design program at Carleton. Team player who exhibits effective time management skills and attention to detail.

## EDUCATION

### Carleton University, Ottawa, ON

#### **Certificate: Carleton University Coding Bootcamp - Full-Stack Web Development**

An intensive six month program which teaches full-stack web development from the ground up. Students develop foundational skills in HTML, CSS, JavaScript and GIT with an eventual focus on the MERN stack.

**August 2020 - February 2021**

#### **Bachelor of Information Technology, Interactive Multimedia and Design, Co-op Option**

A five year program focused on the design and development of all things multimedia. The program balances design skills (UI/UX Design, Game Design, Animation) with technical/programming skills (C++, JavaScript, Software Design) and includes several projects requiring collaborative work.

**September 2017 - Present**

## APPLICATIONS BUILT

### BitGora

- › A marketplace for buying and selling goods with BitCoin
- › Planned and developed the Login feature, CRUD operations for Posts and the User Interface design
- › Learned a new technology (socket.io) to assist in the development of the Chat function
- › Built with: Express, Socket.io, React, Mongoose, Cloudinary, Coindesk API
- › [bitgora.herokuapp.com/](https://bitgora.herokuapp.com/)
- › [github.com/ZiyongHe/bitGora](https://github.com/ZiyongHe/bitGora)

### Good Games

- › An all-purpose video game tracker that allows the user to keep up with current and upcoming games, keep track of owned games and search for specific titles
- › Planned and developed the back-end development, keeping load times at 0.9-1s
- › Smoothed the process of integrating a login system by troubleshooting and debugging
- › Built with: Bootstrap, Intro.js, Express-Handlebars, Express, Passport, Sequelize, Gamespot API
- › [game-helper.herokuapp.com/](https://game-helper.herokuapp.com/)
- › [github.com/LouisYS-Carleton/Game-Helper](https://github.com/LouisYS-Carleton/Game-Helper)

## TECHNICAL SKILLS

HTML	Node.js	Adobe
CSS	Express	Illustrator
JavaScript	MySQL	Adobe XD
jQuery	MongoDB	
		Team
		Collaboration
GIT	Bootstrap	Effective time
GitHub	Handlebars	management
APIs	React.js	Attention to
		detail

## EXPERIENCE

### Public Services and Procurement Canada (PSPC)

**May 2019 - August 2020**

#### **Interaction Design Intern**

- › Documented and led the development of the CanadaBuys visual design, which modernized and pushed the boundaries of the current Government look and feel
- › Produced wireframes, mock-ups and medium-fidelity prototypes in InVision to smooth the design process and provide clear communication
- › Supported a multidisciplinary team of user researchers and content writers by creating placemats to increase engagement towards user research initiatives and publishing web pages on Drupal to meet tight deadlines
